RATTLERS HIS PREY

Pennsylvania Hunter Has Killed 7,000 Reptiles Since 1887

Poisonous Snakes Less To Be Feared Than Ugly Dogs, Declares Man Bitten A Dozen Times

Seven thousand rattlesnakes have bitten the dust in Pike county, Pa., since 1887, all victims of the twisted stick and other implements of destruction in the hands of Jack MacConnell, of Lord's Valley. He declares he has been bitten a dozen times, but that he had rather take his chances with a venomous rattler than an ugly dog.

MacConnell does most of his hunting in swamps. He finds that rattlers feed on birds, squirrels and chipmunks and that these are more plentiful in damp than in mountainous places. He has taken many snakes three feet in length, but only a few six-footers.

Twenty-six years in this hazardous life has dealt lightly with the veteran snake killer. He still makes his living selling the skins of reptiles, which net him from \$2.50 to \$3.00. They are used in the manufacture of belts and pocketbooks.

The fat of the snakes MacConnell melts into an oil which he distributes free of charge among his friends and neighbors, to be used in the treatment of earache, stiff joints, and rheumatism.

Bid Your Children Of Worms

You can change fretful, ill-tempered children into healthy, happy youngsters, by riding them on worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath, are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brisson, of Elgin Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail. Price 25c. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.

A Good Investment

W. G. Magli, a well known merchant of Whittemore, Wis., bought a stock of Chamberlain's medicine so as to be able to supply them to his customers. After receiving them he was himself taken sick and says that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the rest of his entire stock of these medicines. SPECIAL TRAIN FOR MILITARY COMPANIES

To Leave Here Next Tuesday For Middlesboro For The Annual Encampment

A special train, on which will be the Henderson, Hartford, Madisonville, Earlington and Hopkinsville military companies, also the Hopkinsville band, will leave next Tuesday afternoon at 4:15 o'clock for Middlesboro, where the annual encampment of the Kentucky National Guards will be held this year. The local company will spend about ten days in camp. The Hartford company will come to Madisonville Monday afternoon, arriving here about 3:10 and will board the special here.

Capt. Harris stated yesterday that he thought he would leave here with a full company, which is 62 men. He only needs three or four men now to have this number, and it is understood these will be secured before leaving. He has had his men out each night this week and they have been given some good instructions in drill work. He announces that the last drill before leaving will probably be held on the streets Sunday afternoon at 2 o'clock.

For Cuts, Burns And Bruises

In every home there should be a box of Bucklen's Arnica Salve, ready to apply in every case of burns, cuts, wounds or scalds. J. H. Polanco, Delvalle, Tex., R. No. 2, writes: "Bucklen's Arnica Salve saved my little girl's cut foot. No one believed it could be cured." The world's best salve. Only 25c. Recommended by all druggists.

For Carrying Deadly Weapons

A case that attracted considerable attention was the one against Neal Kestner, of Earlington, charged with carrying concealed deadly weapons. In this case the jury was unable to agree, and the case set again for next Monday. It seems that Kestner furnished the evidence that convicted two young men for selling whiskey, which resulted in them being fined \$60 each last Monday. In return one of the men had a warrant issued for Kestner, charging him with carrying concealed a deadly weapon. A number of witnesses were introduced. Jerrold Jonson defended Kestner, while H. F. S. Bailey looked after the commonwealth's side.

Barbecue At Barnsley

SALOONLESS AMERICA

Is The Goal Sought By Christian Endeavors In 1920

Los Angeles, Cal., July 8.—"Saloonless United States" in 1920 is the goal sought by the Christian Endeavor Society, which will meet here in annual convention tomorrow. This will be the keynote of a campaign to be launched at the convention, it was announced today. The society would have the United States "dry" by 1920 as a fitting observance of the 30th anniversary of the landing of the Pilgrim fathers.

Names On The Ballot

The candidates for the county officers were in Madisonville Tuesday afternoon for the purpose of drawing their names from a box to see where they would appear on the ballot. All of them were there and they made a big crowd, after which they repaired to the rear of the Court House and had their pictures taken in a body. The letting of the printing of the ballots is up to the county court clerk and he will make arrangements to have them printed in plenty of time for the primary. The state pays for this under the old law. The candidates were assessed Pro rata also for the election officers in the primary. This ballot will be a very large one and samples will be had to instruct those that do not know how to vote.

Ladies Allowed to Vote

The ladies of this county will be allowed to vote for the Superintendent of schools at the August Primary. A special ballot will be prepared for them and anyone who does not care to vote for the name on the ballot can write their choice with a pencil which will be furnished them.

EXTRACTS FROM GOLDEN CROSS JOURNAL FOR JUNE 1913

From the Annual Address of the Supreme Commander, Joseph P. Burlingame at Atlantic City, May 20, 1913

The financial condition of the order, as you will see by the reports of our Treasurer and Supreme Keeper of Records, has improved steadily from the time of the Boston session in 1908 when the new table of rates was adopted.

At that time, as you all know, there were a large number of claims unpaid and an insufficient amount was being collected from the members; long and tedious delays in the payment of death claims were the results.

All that has been changed, and today, no organization is paying its claims more promptly. None can show a better financial condition and to still further show the value of our table of rates, comes the report from The Actuary who has made the valuation of our certificates. One of the sections, in the so called Mobile Bill, calls for a valuation of certificates and states that if the valuation shows the society to be ninety per cent of the amount required, it shall be solvent. If the valuation shows less than 90%, the society will be required to make up 5% before January 1917 and 5% of the remaining shortage every three years thereafter.

The valuation of our certificate as of Dec. 31, 1911 and the valuation of our certificate as of Dec. 31, 1912 shows that we are above the 90% required. This demonstrates that the United Order of the Golden Cross is in a perfect solvent condition and that we have an adequate table of rates. The Executive Committee have felt that our rates were adequate and the report of the Actuary confirms them in this belief and should be a great help in securing new members.

I want to call the attention of the public at large to the above extracts from the address of the Supreme Commander of the Order; and recommend the Golden Cross to the serious consideration of all those that need insurance and protection, as being safe and sound and Cheap.

JNO. R. EVANS.

WOMEN SCORE VICTORY

Have Right to Vote for School Superintendent in Warren County

The following was taken from the Louisville Post as a message from Bowling Green. The ladies in this county did not have to go to this trouble to get that privilege as clerk Mills will have a special ballot for them to vote for the Superintendent of Schools.

Bowling Green, Ky., July 8.—Women have the right to vote in the race for County Superintendent at the general primary to be held on Saturday, August 2, declared Judge McKenzie Moss, of the Warren Circuit Court, in a decision handed down late Monday afternoon in a friendly suit filed by the two contestants and County Clerk Smith to determine the action of the County Clerk in the premises. In his decision Judge Moss also instructed Clerk Smith to have printed separate ballots for women in this race, and also provide separate ballot boxes for each of the twenty-nine precincts in Warren county.

An Up-State Editor Talks About Senator "Rom" Salmon

J. M. Alverson, editor of the Anderson News, published at Lawrenceburg, who is a great admirer of Senator R. M. Salmon, has this to say in a recent issue of his paper: A Frankfort dispatch says:

"R. C. Crenshaw, of Christian, candidate for the democratic nomination for Senator outdrew Hon. R. M. Salmon, of Hopkins, and will get his name first on the primary ballot." It will take them a month to count Senator Salmon's majority after the primary. "Rom" Salmon did as much, if not more to make Ollie James' success for United States Senator than any man in Kentucky. It was this silver-haired Kentucky gentleman, who told big-brained Ollie to "draw on him when he needed aid." A higher-minded or more honorable gentleman or a better democrat does not live in the confines of old Kentucky than "Rom" Salmon, as he is affectionately called. A friend of the poor and needy always, he is on the side of the People and the Tax-Payers at every crack of the gun. There never was any doubt in the State Senate upon any proposition as to how he stood upon any question when the interests of the people were at stake. If that district wants to nominate a man that will reflect honor and credit upon it and the democratic party, it will nominate him by thousands in the primary. A vote for "Rom" Salmon is a vote to reward a faithful and true friend of Senator Ollie James."

BATH TUBS

Keep on friendly terms with your bath tub. It is the business of the skin to pass off to the surface of the body some of the waste products. In the process of hard manual work or violent exercises unusual large amounts of waste products are made, and the sweat carries them off with greater rapidity. The action of the breeze and the rubbing of the clothes remove some of this waste, but it can not be thoroughly done except with water. A warm bath with the use of a little soap once a week is the minimum with which the skin can do its best work. Baths can well be taken more frequently, especially if one takes a great deal of exercise. Quick baths in cold water without the use of soap toughens the body and makes one less liable to have colds. However, such baths do not give the skin a thorough cleansing, and ought not to be taken by very delicate, sensitive people except under the recommendation of a physician. Baths not only cleanse the skin, but they also start the blood to moving faster. It is known also that they have a marked effect on the nervous system. People who are exceedingly nervous or insane can be more easily and surely quieted by properly administered baths than in any other way. For continuous, mental and physical health, a bath a day is an excellent rule. Teach this to your children. — Kentucky Tuberculosis Commission.

Overgrazed Stock Ranges

Can Come Back

Washington, July 10.—The improved condition of the national forest range after regulated grazing is pointed to by experts of the department of agriculture as a demonstration that acres, which had been severely damaged through overstocking by sheep and cattle, can be brought back to carrying power through a sufficiently intelligent use.

When the government took charge of the livestock ranges within the national forest some of them were so badly overgrazed and otherwise injured from reckless handling of the stock that their grazing value appeared to have been almost entirely destroyed. Many of these ranges, however, have been restored and are as valuable as ever. On several of the forests results have more than justified the expectation and the range is in better condition than it ever was.

An example of this improvement is cited in the Nebo national forest, Utah. In 1903, when the forest was created, the ranges within the forest boundaries were found to be badly overgrazed and trampled because there was a lack of any control or supervision over the areas. One of the areas was at that time estimated to be capable of carrying only 3,000 head of cattle. Now, through conservative management and judicious distribution of the cattle over the ranges, and improvements in water conditions, the carrying capacity of the ranges has been increased until, in the present season, nearly 8,000 head of cattle are using this particular area and the forest officers feel that a few hundred more can be safely grazed there without injury.

Title of Pope.

It is uncertain when the title pope was first used. The earliest instance we can cite, is that of Heraclius, Patriarch of Alexandria, in 223. It is still the ordinary title of parish priests in the eastern Greek church. In the west, it continued for several centuries to be applied to bishops generally, but it was restricted to the Roman pontiff by Gregory VII. in a synod, held at Rome in 1073.

The committee appointed for that purpose by the Board of officers of the Christian church met Monday night and fully discussed the matter of remodeling the church building. They have submitted their ideas to an architect who will draw plans in a very short while. It is expected the improvements will cover the needs of this rapidly growing church. For some time the congregation has realized that the Sunday school had far outgrown the capacity of the building and that for further efficiency a modern building was imperative. The remodelled building will be a credit to the town and church.

Nervous?

Mrs. Walter Vincent, of Pleasant Hill, N. C., writes: "For three summers, I suffered from nervousness, dreadful pains in my back and sides, and weak sinking spells. Three bottles of Cardui, the woman's tonic, relieved me entirely. I feel like another person, now."

TAKE

Cardui

The Woman's Tonic

For over 50 years, Cardui has been helping to relieve women's unnecessary pains and building weak women up to health and strength. It will do the same for you, if given a fair trial. So, don't wait, but begin taking Cardui today, for its use cannot harm you, and should surely do you good. E-72

Carbon Electric Lamps Expensive

The question and answer department of the Courier-Journal has this, that is of interest to all Earlinton users of electric current:

"Boarding-House," Louisville: "Are electric meters reliable? Why do the light bills vary so much in amount? When the meter is in error it usually runs slow instead of fast. It is very hard to make it run fast. One cause of higher bills is forgetfulness to turn off lamps in the cellar or basement or elsewhere when not needed. If the bulbs and shades are not cleaned the dust absorbs the light and new lamps are required. Old carbon filament lamps require about three times as much current needed by the new metal filament lamps. To get the best results the shades and reflectors must throw the light where needed, and they must be cleaned every day. If for company twice a month the house has been lighted from cellar to attic until a late hour the bill may be increased by 75 cents. If ten additional lamps are burned for only twenty hours in a month the increase may be 40 cents. Keep the lamps clean and turn off when not needed.

Moral: Do not use the old carbon filament lamps.

For Weakness and Loss of Appetite

The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out malaria, cures fever, restores appetite, and builds up the system.

Important News in Advertisements (By Holland)

The valuable news of the day is not confined to the news columns. It is also seen in the advertisements. Of course it is important to know what President Wilson is doing, what the latest developments are in China or what baseball club leads the league. But it is also important to know where a bargain in boys' waists, garden hose, breakfast food or straw hats may be found.

These bits of commercial news are among the advertisements. Wise persons look for them and take advantage of them when they are doing their buying. The leading merchants are continually telling you news of their stores, news that is important because it often means a real saving and always means something new and worth while.

Read the advertisements if you seek important news. Read them regularly and always with the thought that back of each advertisement are the reputation and business standing of the merchant. He could not afford to deceive you even if he were so inclined.

Only truthful advertising pays.

"Doan's Ointment cured me of eczema that had annoyed me for a long time. The result was lasting." Hon. S. W. Matthews, Commissioner, Labor Statistics, Augusta, Me.

"Studebaker wagons certainly last a long time"

"I have had this wagon twenty-two years, and during that time it cost me only \$6.00 for repairs, and that was for setting two tires."

"And after twenty-two years of daily use in good and bad weather and over all kinds of roads, I will put this wagon against any new wagon of another make that you can buy today."

"Studebaker wagons are built of air-dried lumber and tested iron and steel. Even the paint and varnish are subjected to a laboratory test to insure wearing qualities."

"No wagon made is subjected to as many tests or is more carefully made than a Studebaker. You can buy them of Studebaker dealers everywhere."

"Don't listen to the dealer who wants to sell you a cheap wagon, represented to be 'just as good' as a Studebaker."

Farm wagons, trucks, dump wagons and carts, delivery wagons, buggies, surreys, depot wagons—and harness of all kinds of the same high standard as the Studebaker vehicles.

Our Trouble.

Dr. Orison Sweet Marden, discussing success in New York, said: "Economy is the road to financial success—and most people in this impatient age try to do the trip in costly, high-speed autos."

"Method in Madness."

"Why do you always insist on talking about the weather to your barber?" "You wouldn't have me talk about anything so exciting as politics to a man who is handling a razor, would you?"

"I am an old man—and many of my troubles never happened."—ELBERT HUBBARD

THE white hair and wrinkled faces of our busy men and women tell of doubt, fear and anxiety—more than disease or age. Worry plays havoc with the nervous system—so that digestion is ruined and sleep banished. What oil is to the friction of the delicate parts of an engine—

DR. PIERCE'S Golden Medical Discovery

is to the delicate organs of the body. It's a tonic and body builder—because it stimulates the liver to vigorous action, assists the stomach to assimilate food—thus enriching the blood, and the nerves and heart in turn are fed on pure rich blood. Neuralgia "is the cry of starved nerves for food." For forty years "Golden Medical Discovery" in liquid form has given great satisfaction as a tonic and blood maker.

Now it can be obtained in tablet form—from dealers in medicine or send 50 one-cent stamps for trial box. Write R. V. Pierce, Buffalo.

DR. PIERCE'S PLEASANT PELLETS Relieve constipation, regulate the liver, and bowels. Easy to take as candy.
